

# Water Texture Replacements Collection

Mods replacing the look of the water in OFP

## 1. Overview

I've gathered all published mods that change the look of the water in Operation Flashpoint.

## 2. File List

I've included `install199.bat` which installs texture replacements for ArmA: Cold War Assault. To use it follow these steps:

- Create a modfolder
- Inside the modfolder create two sub-folders: `bin` and `newdata`
- To `bin` copy `cpbo.exe` (you'll find it in the `NewSEATEST.rar`)
- To `newdata` copy `more_anim.XX.pac` from the selected pack
- Copy `install199.bat` to the modfolder and launch it

In the `Screenshots` folder you'll find screenshots for every texture replacement so that you can compare them before installing.
